

Dear Member,

Sub: - WORKSHOP ON GARBAGE COLLECTION AND DISPOSAL- conversion of waste to energy

As we all know that Kanpur Nagar Nigam had given the responsibility of collection of garbage and its disposal to create energy to A-Z Company which was not successful. Now Kanpur Nagar Nigam is winding up the contract and working to find a suitable alternative to overcome this issue.

MERCHANT CHAMBER OF UP AND KANPUR PARIVARTAN FOURM are jointly organising an interactive session on **GARBAGE COLLECTION AND DISPOSAL- conversion of waste to energy.**

This session will be conducted on 21-august, Friday from 17:00 to 19:00 PM.

Few representatives of Kanpur Parivartan Forum had visited metro cities like Mumbai, Kolkata and Pune. They would like to share their experiences and also discuss different modern techniques and models which are being used in these cities and how well their present Models of waste management are being working.

We invite you to participate and give your inputs for managing waste collection and its disposal in Kanpur Nagar. We sincerely hope that together we shall be able to present a workable model to Authorities in Kanpur for cleaner and greener Kanpur.

The details of the event are as below

Date 21-08-15

Time 1700-1900 PM

Venue: Conference room Merchants Chamber of Uttar Pradesh

We once again request your active participation for our Swachch Bharat Abhiyan.

Regards

Arvind Kumar Sinha
Secretary
Merchants Chamber of Uttar Pradesh
